YMCA PRESCHOOL

The Y has a licensed preschool education program that will help your child prepare for kindergarten, gain social skills, be active and of course have fun.

One-Time Registration Fee: \$20
(per child, per school year)

Register at the Y Service Center. Monthly fees are adjusted for months with holidays as needed. Fees may be paid through an automatic bank draft or are due prior to the start of each month.

Y Preschool consists of three age-based classrooms. Classroom size is limited for both preschools, so we encourage parents to register early.

As with all Y programs, financial assistance for preschool fees is available for families who demonstrate financial need. The application process is simple and quick. You can download an application from the Y's website at www.marionymca.org or obtain one from the Y service center.

A second child in the same household participating in either Explore & Play or Kaleidoscope Kids or Discovery Kids will receive a 20% discount off of the regular fee.

This is a great first time preschool experience for young children. Caring teachers will help all children develop social skills, form friendships and begin to learn the basics needed for a strong education. There is an emphasis on large motor development and physical activity. Children must either be potty trained or a parent / guardian must remain in the building and accessible throughout the class time.

At Discovery Kids Preschool, we believe the values and skills learned early are vital building blocks for quality of life and future success. That's why our preschool is staffed with people who understand the cognitive, physical and social development of children, the need children have to feel connected and supported, and their need in trying new things. We base our lesson plans on Ohio's Early Learning and Development Standards. Our half-day program includes creative learning, music and movement, pre-writing and writing, reading readiness, arts and crafts, centers and more. *Teachers plan activities and learning centers based on the interests and development of the children in their class to properly prepare them for Kindergarten.*
